

Thank you for your interest in Georgian Bay Solar and Wind (GBSW).

Owner Terry Plaskitt has more than 18 years experience and has built a reputation, over these nearly two decades, as being at the leading edge of green energy solutions, providing unsurpassed customer service and support for those seeking off-grid renewable energy systems.

Georgian Bay Solar and Wind has provided environmentally friendly energy options for edifices of all sizes (*and locations!*). From small cabins to complete lodges and anything in between, GBSW approaches each new project with an eye for design, budget and innovation.

Terry personally handles design, pricing, installation and support of all the Georgian Bay Solar and Wind projects keeping costs down for his customers while ensuring all systems are installed with the high standards GBSW has become known for.

### THE TEAM

Terry's wife, Elaine works as Administrative Assistant sharing his passion for excellence in customer service and support.

For large jobs Georgian Bay Solar and Wind is proud to seek local workers, for the help needed to assist with installation.

Commissioning 20 K.W. SMA<sup>®</sup> system (4-5000 W inverters stacked)

SunnyBoy<sup>®</sup> with 2 strings of BP Solar Modules

Magnum<sup>®</sup> MS4024PAE system with auto gen start to propane powered generator

Old Xantrex<sup>™</sup> DR 3624 still running faithfully

### CUSTOM SOLUTIONS

Georgian Bay Solar and Wind looks forward to working with you to determine whether wind, solar or a combination of both is best for your application. Terry will design a unique plan specific to your needs, budget and preferences.

### INDUSTRY LEADERS

The products/components we use are from leading manufacturers including Xantrex<sup>™</sup>, Magnum<sup>®</sup>, SMA<sup>®</sup>, Midnite Solar<sup>™</sup>, East Penn<sup>™</sup>, Surrette<sup>®</sup>, Outback<sup>®</sup>, Solgate<sup>®</sup>, BP Solar<sup>™</sup>, Sharp<sup>®</sup>, and Canadian Solar<sup>™</sup>. We are a leader in Northern Ontario Solar and Wind energy.

### TIMELY SERVICE

GBSW understands that their customers lead busy lives. When you contact us for information we will do our best to return your call or email within 24 hours.

Timeline for projects have many factors to consider therefore each installation will be quoted individually. Our average cabin installation is complete in approximately 2 to 3 days.
